

Position	Luxury Reef and Jellyfish Aquarium service Technician
Facility	Reef Aquaria Design
Location	Fort Lauderdale, Florida
Job Summary	Reef Aquaria Design is an industry leading company with over 50 years of experience designing, building, and maintaining some of the country's best custom reef aquariums. With a 24,000 sq ft facility and iconic sister companies like Chemi-pure, Jellyfish Art and Deltec USA we mean business. Reef Aquaria Design (RAD) has a fantastic career opportunity and is looking for qualified individuals that are honest, possess a strong work ethic and are passionate about aquariums. Excellent communication skills, being a team player as well as working individually are essential. RAD offers a fast-paced and exciting work environment for the right candidate. Join our team and help us continue to build the number one aquarium service team in the world.
Essential Functions	The Aquarium Service Technician (AST) will be responsible for the ongoing care and maintenance of RAD client aquarium systems as deemed by the Aquarium Services Manager. The AST will be responsible for all cleaning, maintenance, animal husbandry, and all other required measures to maintain a healthy and beautiful aquarium for our clients. The AST will also be responsible for maintaining records for each individual client service account including aquarium service reports, water chemistry logs, and billing reports in accordance with the standards set forth by the aquarium services manager. The AST will be responsible for maintaining the company service vehicle in clean presentable condition and ready for service. The AST will report directly to the Aquarium Services Manager on all matters related to aquarium maintenance service. Attention to customer service and satisfaction is paramount in the performance of all job duties and responsibilities.
